JOIN US IN THIS EXCITING - INTERACTIVE WORKSHOP

Entire civilizations have been lost due to lack of knowledge. Ours is no exception. Countless numbers of innocent Americans continue to lose their businesses, homes and life savings – even their children are being forced to assume what the IRS may wrongfully conceive as [their tax liability!](#) This law class, now in [webinar](#) format, will be a turning point of your life.

In what was *formerly a \$1000 40-hour live class*, you will get the information, skills and support you need to be an effective *"belligerent claimant in person."* As an individual, or as a *sui juris* Legal Education Team, you will be able to mount a formidable legal action to achieve your survival objectives in spite of the court that considers you incompetent to represent yourself (*non compos mentis*). Remember, if you are represented by an Attorney, you cannot challenge the jurisdiction of the court, as the Attorney is an officer of the court and he is presumed to plead after having obtained leave (from you), which admits the jurisdiction.

TOPICS COVERED:

Shelter of Assets

The Law

Juristic Personality

The Legal System

Rules of Court

Jurisdiction

Tax

Expatriation

WHAT PAST ATTENDEES ARE SAYING:

At 60 years old, I've taken many law courses, most little more than spins on codes, padded by instructor excuses for less than in-depth material. Mel blew that experience to bits. ~ LS

This class has the most value for the money and time I have experienced. Thank you, Mel. ~ AN

As a man who loves his God, his country, and his family, I thought I was free to live as a free man in a free country, the greatest country in the world, the USA. After taking Mel's class, the quote from Johann von Goethe, "None are so hopelessly enslaved as those who falsely believe they are free," could not ring more true today. ~ JG

Only twice in my 59 years on this planet have I met a lawyer that I honor and respect! The first is ___ and now the second is Mel Stamper! What he has accomplished in his life as a Vietnam soldier, a peace officer in Chicago, a fellow engineer, as a non Bar lawyer, and now as a teacher, I can only marvel over! His knowledge and wisdom of the true law our country is supposed to be under, I now aspire to! In his workshop, he supplied huge pieces of the puzzle I have been putting together for over twenty years. Mel is a true Patriot of the highest order, and I pray God keeps him safe! I recommend his workshop to anyone that wants the truth of who we are and where we are in relation to our law system and the current governmental system and how to function skillfully in those systems! ~ JB

It was a pleasure and an honor for me to attend your classes last month. I'm originally from Ethiopia and came here fleeing from a communist government. I assumed I came to "the land of the free..." but after attending your classes realized that there is much more to be done to get there! Just a few years ago 193 people were massacred in Ethiopia on a peaceful demonstration fighting for their right to vote. It is very sad for me to notice that ordinary Americans couldn't use their right, while it lasts, to bring in justice and freedom. I just want to use this opportunity to express my appreciation for the eye-opening lessons!!! Looking forward to future seminars/classes. ~ GD

When I came to this class, I had some vague idea of the types of things that would be covered. In the back of my mind, I thought it would be a "drill sergeant" type instructor who would present the info and go home. What I found was a very dedicated, passionate, caring man who has shown me what *humble* is, a man that lives and breaths what he teaches, that demonstrates how "Christianity" is truly a lifestyle (evident in his desire to live according to God's law), a good hearted person who cares about people, and a man with a brain that needs to be down-loaded on my computer and preserved like pharaoh. His life experiences have paved the way for me to learn the TRUTH and history, and not take for granted his contribution to this life that I and the generations behind me can enjoy if we proceed with application of the knowledge that was shared with me. Mel's passion for freedom and justice really touched me. I am also a passionate person, but he's surely demonstrated to me what "passion for things that really matter" looks like. I really enjoyed the revelation of truth received during this class and I am recommending (Mel's) teaching to those I know would take heed to the wonderful knowledge he has to share with those who really want to know. ~ PB

Content and presentation best I have received from any source. ~ MS

This class is a real eye-opener, even for one exposed to a few of the basic concepts of a fraudulent government. Mel is brilliant and his passion for research and his gutsy willingness to tackle a problem or issue is like a breath of fresh air! Plus he is highly entertaining! ~ NE

The way that Mel breaks down the complicated and overwhelming wording of the law to easy to understand basic definitions is amazing. I recommend this class to anyone who wants to understand the language of law. ~ BJ

A college education and more ... ~ BS

This class is very informative and enlightening. I can now "see" the whole picture. ~ MG
