

Information from Ed to others,

Article IV Section 4 **forbids** Invasion and Domestic Violence by legislative and executive (feds) against **ANY** people.

You allow others to mislabel your **sheep** as **livestock** when in fact you need to record

" I am in Peace and competent and I live free on free land in Peace"

"My sheep are not livestock but are my sheep roaming at large on my land I use.

"My sheep belong to me on my land I use. See my attached map title."

Supreme Court Case: Douglas vs Seacoast Products (1972?)

"It is fantasy to think of owning the wild fish birds and animals.

The several States and the United States do not hold title to these creatures until they are reduced to possession by skillful capture."

In Nevada State Law under original Taylor Grassing Act and under trespass "Cattle (sheep also) roaming at large are exempt for purpose of trespass" even if they damage legal fence.

Your State has similar provisions. Get a **Temporary Protection Order TPO** from local **Justice of Peace**
There is no charge for this TPO just use correct language on their form and file it.

Other helpful correct language is available for you to use at wefreepeople.org
