Attorns is better use than lawyers.

Switchcraft / bait and switch/ fraud is 24-7

Several bankruptcies ? Yes. Banking Holiday? Yes.

Two kinds of equity "process"? Yes

Public imposters... a great oxy-moron! Sovereign citizen?

Private and Public

Private refers to each of several states...

Public refers to the several states as a group...

For me this makes everything SIMPLE and CRYSTAL clear.

Many people are making accusations that are simply **NOT CORRECT.**

**With respect to the statutes at large - how they were perverted:**

**USE** of Statutes at large with enactment clauses were simply replaced by **USING** copy-right code printed by West Publishing. **Switchcraft**

Who is the true creditor in this action? Brilliant!!!!!!!

Show true cause for action! With no true cause for action shown... then any court lacks subject matter jurisdiction.

States enslaved by "Bankruptcy fraud" yes and NO.

People in States Offices go along with it.

Is We the People separate and distinct from:

Americans and natural people in America? Yes.

**We deal with Bankruptcy Agency and Never with Creditor Principal.**

**How was I pledged to the creditor? Show me the contract?**

Their debt is not my debt...

"American Public Policy" is an oxy-moron: **Private> State Public >**states as a group

The Erie versus Thompkins 1938 case was a decision based upon Public Policy.

**Property Taxes> is a misnomer.**

***I disagree with the author, we do receive some service from State we must pay for: Appraisal is the mechanism for charge.***

***Fire and "police" protection is a service we "ask" for with our signatures. Our signatures are very powerful.***

***I am during Time of Peace; not bankruptcy nor war, signed...***

***Fighting yourself in court is a very correct assessment. Why do it?***
