

Article IV S4 Treatise 2014-06-12 by Karen Sontag

There is much **confusion** perpetuated regarding **hierarchy of authority** for the sovereign independent States and the United States.

Such grave **misinterpretation** applied upon us all **is without excuse** and obligates acts for correction.

Article IV Section. 4 **is one directional**, and solely obligates the United State to the sovereign and independent States in union.

The order of authority is defined in **Article. IV Section. 4:**

The United States shall guarantee to every State in this Union a Republican Form of Government, and shall protect each of them against Invasion; and on Application of the Legislature, or of the Executive (when the Legislature cannot be convened), against domestic Violence.

Article IV Section. 4: a - **clearly obligates**, by contract, the United States to the sovereign and independent States in Union.

b - **strongly subjugates** the United States to the sovereign and independent States in Union.

1 - "The United States shall guarantee to every State in this Union a Republican Form of Government,"

a - The United States is to be solely a Republican form of government.

b - All other forms of Government, overt or covert; alluded or enforced, declared or inferred, by acts and/or intent, are not now nor ever accepted.

2 - "and shall protect each of them against Invasion;"

a - The United States **will NOT allow** nor act in any manner to bring about foreign invasion nor any atmosphere likened to such as in **Federal invasion** upon the States.

3 - "and on Application of the Legislature, or of the Executive (when the Legislature cannot be convened), against domestic Violence."

a - The United States, by Legislature, thus by all Legislators as well as the Executive **will NOT** allow, tolerate, nor participate in offenses upon local people. Both the Legislators and the Executive are obligated, by contract, **to NOT** violate the people; **to NOT** bring injury upon local people.

b - This third part is most requiring of thought and regard. Domestic Violence is not intended to mean violence within our Nation, but upon our local men and women by foreigners **and all those who are foreign** ie, those in government **who**, by their positions, **stand in a foreign jurisdiction** to all live men and women on the land, **living in Peace.**
